IMPORTANT NOTICE

Confidentiality & Disclaimer

This document has been prepared solely to facilitate discussions regarding a potential strategic development partnership and equity investment in Mortgage Hub.

The information contained within is commercially sensitive and confidential. It should not be copied, distributed or disclosed to any third party without the prior written consent of the author.

The financial projections, strategic plans and operational assumptions are management forecasts prepared using reasonable commercial assumptions and are intended to illustrate the proposed growth strategy. They are not guarantees of future performance. Year 5–10 figures are management projections extending the base forecast; renewal figures are drawn from the recurring-revenue model.

The names **Mortgage Hub**, **Mortgage Academy** and **Mortgage Hub Group** are temporary working titles; the intended customer-facing brands remain subject to trademark registration. The investment proposition is independent of the final branding.

Technology philosophy: Technology within Mortgage Hub is designed to augment professional advice, not replace it. Any future expansion of AI capability will be implemented in line with applicable regulation, customer expectations and appropriate human oversight.

INVESTMENT HIGHLIGHTS

A scalable, technology-enabled mortgage platform — not just another brokerage

66,500

ADDRESSABLE PARTNERS

UK professional firms across estate agency, legal, accountancy & property

~£4m

Y10 RECURRING REVENUE

Compounding renewal-income portfolio from retained customers

~£2.3m

Y10 TOTAL EBITDA

New mortgage income + renewals + Mortgage Academy

£104k → £600k

MORTGAGE ACADEMY REVENUE

Standalone talent engine — profitable from Year 3 (Y3 → Y10)

Three pillars, each a distinct value driver

- ▶ **Distribution.** A scalable self-employed mortgage & protection business, with advisers earning **£36k → £73k** (incl. retained self-introduced 20%) — a compelling recruitment proposition.
- ▶ **Mortgage Academy — the talent engine.** A proprietary, **standalone and profitable** academy (£104k Y3 → £600k Y10) that de-risks recruitment and supplies trained advisers to Mortgage Hub **and the wider network ecosystem**.
- ▶ **Technology.** Susan, the AI digital colleague, is **already live** for booking, fact-find and customer engagement, driving a low cost-to-serve.

Why invest

- ▶ **Capital-efficient launch** — initially an Appointed Representative of a network selected for the best commercial terms and technology alignment, on a journey to direct authorisation.
- ▶ **Compounding recurring revenue** — a renewal-income portfolio that builds long-term enterprise value beyond new business.
- ▶ **Experienced founder** — 28+ years leading, transforming and scaling mortgage advice businesses.

THE HEADLINE NUMBERS

Total revenue compounds to ~£10m by Year 10

Total revenue combines **new mortgage income**, **renewal / recurring income** and **Mortgage Academy** revenue. Recurring income is negligible in Years 1–2 and becomes the dominant driver by Year 10.

Year	New mortgage income	Renewal / recurring	Mortgage Academy	Total revenue
Year 1	£60,000	—	—	£60,000
Year 2	£480,000	—	—	£480,000
Year 3	£1,200,000	£14,400	£104,000	£1,318,400
Year 4	£2,100,000	£129,600	£200,000	£2,429,600
Year 5	£2,700,000	£417,600	£300,000	£3,417,600
Year 10	£5,700,000	£3,945,600	£600,000	£10,245,600

Mortgage Academy becomes a material revenue stream from Year 3 — a standalone, profitable talent business scaling from £104k (Y3) to £600k (Y10), on top of new mortgage and recurring income.

New mortgage income: from the management forecast (Y10 = 95 advisers × ~£60k net). Renewal / recurring income: from the recurring-revenue model. Mortgage Academy: Y3–Y4 forecast, Y5 & Y10 management projections. Year 5–10 are management projections extending the base forecast.

01

The Opportunity

A large, fragmented market at a technology and talent inflection point.

MARKET & TIMING

A large, fragmented market ready for a technology-led operator

Mortgage distribution remains heavily intermediated and relationship-driven, yet under-served by modern technology and structured talent development.

66,500 TARGET UK FIRMS	~20,000 NO MORTGAGE REFERRAL PARTNER	~46,500 CONVERSION OPPORTUNITIES	60 COMPLETIONS / ADVISER / YR
----------------------------------	---	--	---

Why now

- ▶ **Technology inflection.** AI and automation now make it possible to remove administrative drag from advisers and materially improve customer experience.
- ▶ **Talent gap.** The industry faces a structural shortage of qualified advisers — the Mortgage Academy turns this constraint into a proprietary supply engine.
- ▶ **Partnership white space.** Roughly 30% of target firms have no established mortgage referral relationship — an immediate acquisition opportunity.
- ▶ **Capital-light entry.** The Appointed Representative model lets the business launch quickly under an established compliance framework while scaling.

The thesis: combine experienced advisers, an always-on AI operating platform and a structured talent pipeline to build a scalable advice business with a compounding recurring-revenue base.

02

The Business

Three engines of growth on one integrated, AI-enabled operating platform.

WHAT WE ARE

Three engines of growth, one integrated platform

Mortgage Hub is designed from inception as an operating platform — integrating people, process and technology to scale without proportional increases in management overhead.

THE THREE ENGINES OF GROWTH

Engine One — Distribution

The regulated mortgage & protection business.

- Customer acquisition
- Introducer relationships
- Adviser productivity
- Commercial growth

Engine Two — Talent

Mortgage Academy — a proprietary, standalone talent engine, profitable from Year 3.

- Recruitment & CAS preparation
- Coaching, CPD & sales excellence
- Leadership development
- Standalone business + network pipeline

Engine Three — Technology

Proprietary AI-enabled operating platform.

- Susan AI
- CRM & customer portal
- Telephony & automation
- Business intelligence

The operating model

The business launches as an **Appointed Representative of a network selected for the best commercial terms and technology alignment**, leveraging that network's established compliance and governance infrastructure during the early growth phase. This keeps the model capital-efficient and de-risks the regulatory pathway while the adviser base and technology scale. Over the journey to Year 10 the business will transition to becoming **directly authorised** (see Regulatory Journey).

HLP is the leading intended network partner, subject to final commercial terms.

HOW WE MAKE MONEY

Diversified income today, compounding recurring income tomorrow

Revenue streams

New mortgage income

Procuration fees, broker fees and protection & general insurance — net income received from the chosen network.

Recurring / renewal income

Renewals, product transfers and remortgages from retained customers — a compounding enterprise-value driver.

Mortgage Academy

Structured recruitment, training and development — a talent pipeline and a standalone income stream from Year 3.

Per-adviser economics (illustrative, at scale)

Each fully trading adviser is expected to complete approximately **60 customer acquisitions annually**, generating average annual **new mortgage income** (net from the network) of:

Revenue source	Annual new income
Procuration fees	£33,000
Broker fees	£8,000
Protection & general insurance	£19,000
Total new mortgage income	£60,000

Figures reflect new mortgage income only and exclude renewal / recurring income, which is shown separately to avoid double-counting.

PROPRIETARY PLATFORM

Susan — the AI digital colleague already working today

Susan improves customer experience and adviser productivity by undertaking structured administrative activities under human oversight. She is not used to provide regulated advice.

SUSAN — CAPABILITY ROADMAP

PHASE 1 · LIVE

Administrative colleague

- Welcome & fact-find
- Voice & typed chat
- Appointment booking
- SMS confirmations
- Progress updates

PHASE 2 · IN DEVELOPMENT

Adviser support

- Integrated telephony
- Call transcription & AI summary
- Document intelligence
- Workflow management
- Case preparation

FUTURE VISION

Strategic capability

- Open Banking integration
- ID verification
- Affordability pre-assessment
- Payment links
- Quality assurance

Why it matters commercially

- ▶ **Lower cost-to-serve.** Automation removes administrative load, letting advisers spend more time advising.
- ▶ **Scalability.** Technology absorbs growth that would otherwise require proportional headcount.
- ▶ **Competitive moat.** Progressive AI capability, built in line with regulation, compounds into a durable advantage.

MORTGAGE ACADEMY · THE TALENT ENGINE

A proprietary talent engine — strategic capability, not just training

The Mortgage Academy turns the industry's structural adviser shortage into a proprietary supply engine — a **standalone, profitable business** that develops talent for Mortgage Hub and the wider network ecosystem.

Programme scope

- Recruitment & CAS preparation
- CPD, coaching & sales excellence
- Leadership & management development
- AI adoption & platform training
- Business growth coaching
- Network / platform standards training

Career pathway

- Trainee & new adviser
- Fully competent adviser (CAS)
- Senior adviser & coach
- Sales & leadership roles
- Wider network opportunities

Profitable as a standalone business — EBITDAR £34k (Y3) rising to £70k (Y4).

Strategic value: a sustainable talent pipeline that improves adviser retention, materially **reduces recruitment risk**, and supports the direct-authorisation journey by ensuring advisers are trained on the firm's own systems, standards and compliance culture.

CUSTOMER ACQUISITION

A predictable, partnership-led acquisition engine

Rather than relying on purchased leads, Mortgage Hub builds an ecosystem of professional partners who benefit from introducing customers.

Sector	Estimated UK businesses
Independent estate agencies	11,000
Residential property developers	9,000
Solicitors & conveyancing firms	9,500
Accountancy & tax advisory firms	37,000
Total addressable market	66,500

Acquisition is diversified across strategic partnerships, refer-a-friend, existing-customer referrals, self-generated business, digital marketing and corporate partnerships.

ADVISER PROJECTED INCOME

Advisers who self-generate keep the full economics of their customers

Standard split: 50% adviser, 20% introducer. Of annual acquisitions, 30 are **self-introduced** (no external introducer) — so on those the 20% is retained by the adviser, on top of their 50%.

Year	Case size	Acq.	Self-intro	Adviser 50%	Retained 20%	Renewal	Total adviser income
Year 1	£1,000	60	30	£30,000	£6,000	—	£36,000
Year 2	£1,200	70	30	£42,000	£7,200	—	£49,200
Year 3	£1,500	80	30	£60,000	£9,000	£4,000	£73,000

Total = adviser 50% commission + retained 20% on self-introduced customers + renewal commission. External introducer payments (£6,000 / £9,600 / £15,000) apply only to introducer-sourced customers and are not deducted from adviser income.

The growth story

- ▶ **Retained self-introduced 20%** adds £6,000–£9,000 of income annually for an adviser building their own client base.
- ▶ **Rising case values** (£1,000→£1,500) as protection and GI attachment deepens.
- ▶ **Emerging renewal income** from Year 3 — a compounding personal income stream earned on relationships already won.

03

The Numbers

Planned investment phase, then operating leverage and compounding recurring revenue.

MANAGEMENT FORECAST

Planned investment phase, then rapid operating leverage

Figures reflect **new mortgage income only** (net from the chosen network) and exclude renewal / recurring income, which is forecast separately.

	Year 1	Year 2	Year 3	Year 4	Year 5
Advisers (trading)	1	8	20	35	45
Revenue (new mortgage income)	£60,000	£480,000	£1,200,000	£2,100,000	£2,700,000
Adviser commission	(£30,000)	(£240,000)	(£600,000)	(£1,050,000)	(£1,350,000)
Introducer commission	—	(£96,000)	(£240,000)	(£400,000)	(£500,000)
Gross profit	£30,000	£144,000	£360,000	£650,000	£850,000
Salaries & costs	(£90,000)	(£160,000)	(£110,000)	(£200,000)	(£265,000)
Training investment	—	—	(£40,000)	(£50,000)	(£60,000)
EBITDAR	(£60,000)	(£16,000)	£210,000	£400,000	£525,000

New mortgage income scales at ~£60,000 net per fully trading adviser (Y4 = 35 advisers; +10/yr → Y5 = 45). Adviser commission ~50%; introducer commission ~20%, moderated as self-introduced business grows. The business operates at a planned loss during the initial development phase while investing in technology, recruitment, the Mortgage Academy and organisational capability.

ENTERPRISE VALUE

A compounding renewal-income portfolio drives long-term value

Assumptions: 60 completions / adviser / year · 60% retention · £400 average renewal income · +10 advisers annually from Year 5.

Year	Renewal income	Adviser (50%)	Introducer (20%)	Forecast EBITDAR
3	£14,400	£7,200	£2,880	£2,880
4	£129,600	£64,800	£25,920	£25,920
5	£417,600	£208,800	£83,520	£83,520
6	£921,600	£460,800	£184,320	£221,184
7	£1,569,600	£784,800	£313,920	£376,704
8	£2,217,600	£1,108,800	£443,520	£532,224
9	£3,009,600	£1,504,800	£601,920	£722,304
10	£3,945,600	£1,972,800	£789,120	£946,944

By Year 10 the recurring-income portfolio is projected to generate almost **£4 million** of annual recurring revenue, producing forecast EBITDAR approaching **£1 million** from this stream alone.

04

The Ask & Returns

Strategic equity partnership to accelerate the establishment phase.

THE ASK & USE OF FUNDS

Strategic investment to accelerate the establishment phase

Equity partnership

STRATEGIC PARTNER SOUGHT — NOT A PASSIVE INVESTOR

Investment supports development during the establishment phase — not to prop up an unsustainable model. It funds the build-out of technology, talent and distribution ahead of the recurring-revenue inflection.

Use of funds

Technology Susan AI, customer portal, workflow automation, telephony & network integration.	Working capital Planned operating losses during Years 1–2 while the adviser base scales.	Mortgage Academy Recruitment, structured onboarding and leadership capability.
Recruitment Attraction and onboarding of experienced self-employed advisers.	Marketing Brand development, digital marketing and customer acquisition.	Infrastructure Systems, licences, professional services and business support.

EBITDA TRAJECTORY & VALUE CREATION

From planned investment to a ~£2.3m EBITDA business

Total EBITDA builds from new mortgage income, a compounding renewal portfolio and Mortgage Academy.

Year 5–10 are management projections extending the base forecast; renewal figures are drawn from the recurring-revenue model. Bars indicative for illustration.

Value creation plan

Value driver	Mechanism	Timeline
Adviser distribution	Scalable self-employed model with technology leverage	Years 1–4
Technology platform	Susan AI, CRM, telephony & automation reducing cost-to-serve	Ongoing
Mortgage Academy	Standalone talent business + network-ecosystem expansion	Year 3+ (standalone Y3)
Partnership network	66,500-addressable-market acquisition engine	Years 2–5
Recurring revenue	Compounding renewal-income portfolio	Years 3–10
AI capability	Progressive Susan phases creating a competitive moat	Years 1–5+
Direct authorisation	AR → DA transition — margin expansion + compliance/sourcing moat	By Year 10

GOVERNANCE EVOLUTION & MARGIN EXPANSION

From Appointed Representative to Directly Authorised by Year 10

The firm launches capital-efficiently under a network, then earns its way to direct authorisation — converting network charges into owned capability, margin and moat.

NOW · PHASE 1

Appointed Representative

Operate as an AR of a network selected for the best commercial terms and technology alignment, leveraging established compliance and governance during early growth.

TRANSITION · PHASES 2-3

Building DA readiness

Scale advisers, systems and oversight; invest in proprietary compliance and product-sourcing capability. Transition cost is **absorbed by network charges no longer paid away** — not an additional attributed cost.

BY YEAR 10 · TARGET

Directly Authorised

Full regulatory control. Network charges are redirected into backend AI for compliance and product sourcing — capabilities that supersede what networks provide.

Why this is a powerful value driver

- ▶ **Margin expansion, self-funded.** The cost of becoming DA is absorbed by network fees that are no longer paid away — so it is funded from existing economics rather than added as new cost.
- ▶ **A compliance & sourcing moat.** Direct authorisation unlocks investment in backend AI focused on compliance and product sourcing — proprietary capability that supersedes standard network provision.
- ▶ **Attracts customers and advisers.** Better compliance, better product sourcing and superior technology make the platform more compelling to both customers and the advisers the firm recruits.
- ▶ **Compounding advantage.** Owning the regulatory and sourcing stack strengthens every other engine — distribution, talent and recurring revenue.

EXECUTION

A clear, phased path — with risks actively managed

PHASE 1 · YRS 1-2

Foundation

- Launch as network AR
- Deploy Susan Phase 1
- First adviser cohort
- Establish Academy
- Build introducer network

PHASE 2 · YRS 3-4

Operational scale

- Academy standalone
- First Sales Manager
- Susan Phase 2 & telephony
- Positive profitability
- Deepen integration

PHASE 3 · YR 5+

Strategic growth

- Academy across network
- Enhanced AI
- Technology licensing
- Selective acquisitions
- National platform

Risk management

Risk	Mitigation
Adviser recruitment	Mortgage Academy creates a structured recruitment & development pipeline
Regulatory change	Operate within the network's governance framework; adapt as requirements evolve
Technology delivery	Phased implementation with testing before wider deployment
Customer acquisition	Diversified lead generation across partnerships, digital and adviser-led BD
Scalability	Technology and automation reduce reliance on rising management overhead

LIVE PLATFORM — NOT A CONCEPT

A comprehensive, operational platform today

The full customer, introducer and adviser experience is already live in production — the same depth of functionality set out in detail in the memorandum, delivered end to end.

Susan — AI digital colleague LIVE

- ✓ Spoken (voice) fact-find and typed chat alternative
- ✓ Structured welcome & data capture under human oversight
- ✓ AI conversation summaries on the customer timeline
- ✓ Progress updates & customer prompts

Customer portal & hub LIVE

- ✓ Digital onboarding & self-serve appointment booking
- ✓ SMS + email confirmations; attend-only or full fact-find
- ✓ View cases, update contact details & address
- ✓ Refer-a-friend with admin-configurable limits

Introducer portal LIVE

- ✓ Shareable referral links with automatic attribution
- ✓ Portal booking (email + SMS) and manual lead logging
- ✓ Referral dashboard — stage, adviser, days at stage, last contact
- ✓ Commission statement with payout dates; company code for teams

Adviser workspace LIVE

- ✓ Tabbed customer profile — contact, notes & history, fact-find, journey, CRM
- ✓ Needs-attention highlights for call-backs & ready-to-review
- ✓ Journey milestones with automatic customer SMS
- ✓ Personal commission statement

Integrated telephony LIVE**Softphone**

- ✓ Outbound & inbound calls in-app with call recording
- ✓ Click-to-call from customer records

Why partner now

Mortgage Hub is seeking a strategic partner to help build one of the UK's most progressive, technology-enabled mortgage distribution platforms — a long-term relationship founded on shared values, aligned incentives and a common ambition.

Peter Mabbott · Founder & Managing Director
